## 1. Aims

Our school aims to ensure that all personal data collected about staff, pupils, parents, governors, visitors and other individuals is collected, stored and processed in accordance with the General Data Protection Regulation (GDPR) and the expected provisions of the Data Protection Act 2018 (DPA 2018) as set out in the Data Protection Bill. This policy applies to all personal data, regardless of whether it is in paper or electronic format.

## 2. Legislation & Guidance

This policy meets the requirements of the GDPR and the expected provisions of the DPA 2018. It is

based on guidance published by the Information Commissioner's Office (ICO) on the GDPR and the ICO's code of practice for subject access requests.

In addition, this policy complies with regulation 5 of the Education (Pupil Information) (England) Regulations 2005, which gives parents the right of access to their child's educational record.

### 3. Definitions

| Term                                | Definition                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal Data                       | Any information relating to an identified, or identifiable, individual. This may include the individual's: <ul style="list-style-type: none"> <li>• Name (including initials)</li> <li>• Identification number</li> <li>• Location data</li> <li>• Online identifier, such as a username</li> </ul> It may also include factors specific to the individual's physical, physiological, genetic, mental, economic, cultural or social identity. |
| Special categories of personal data | Personal data, which is more sensitive and so needs more protection, including information about an individual's: <ul style="list-style-type: none"> <li>• Racial or ethnic origin</li> <li>• Political opinions</li> <li>• Religious or philosophical beliefs</li> <li>• Trade union membership</li> <li>• Genetics</li> <li>• Health – physical or mental</li> <li>• Sex life or sexual orientation (staff only)</li> </ul>                 |
| Processing                          | Anything done to personal data, such as collecting, recording, organising, structuring, storing, adapting, altering, retrieving, using, disseminating, erasing or destroying. Processing can be automated or manual.                                                                                                                                                                                                                          |
| Data subject                        | The identified or identifiable individual whose personal data is held or processed.                                                                                                                                                                                                                                                                                                                                                           |
| Data controller                     | A person or organisation that determines the purposes and the means of processing of personal data.                                                                                                                                                                                                                                                                                                                                           |
| Data processor                      | A person or other body, other than an employee of the data controller, who processes personal data on behalf of the data controller.                                                                                                                                                                                                                                                                                                          |
| Personal data breach                | A breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to personal data.                                                                                                                                                                                                                                                                                             |

#### **4. The Data Controller**

Our school processes personal data relating to parents, pupils, staff, governors, visitors and others, and therefore is a data controller.

Homer First School and Nursery is registered as a data controller with the ICO and will renew this registration annually or as otherwise legally required.

#### **5. Roles & Responsibilities**

This policy applies to all staff employed by our school, and to external organisations or individuals working on our behalf. Staff who do not comply with this policy may face disciplinary action.

#### **6. Governing board**

The governing board has overall responsibility for ensuring that our school complies with all relevant data protection obligations.

#### **7. Data Protection Officer**

The Data Protection Officer (DPO) is responsible for overseeing the implementation of this policy, monitoring our compliance with data protection law, and developing related policies and guidelines where applicable.

The DPO is also the first point of contact for individuals whose data Homer First School and Nursery processes, and for the ICO.

Full details of the DPO's responsibilities are set out in their job description (Appendix 2)

Our DPO is Rosina Rafiq

The preferred method of contact is by e-mail: [finance@homerfirstschool.co.uk](mailto:finance@homerfirstschool.co.uk)

#### **Headteacher**

The headteacher acts as the representative of the data controller on a day-to-day basis.

#### **All staff**

Staff are responsible for:

Collecting, storing and processing any personal data in accordance with this policy

Informing Homer First School and Nursery of any changes to their personal data, such as a change of address

Contacting the DPO in the following circumstances:

- With any questions about the operation of this policy, data protection law, retaining personal
- data or keeping personal data secure
- If they have any concerns that this policy is not being followed
- If they are unsure whether or not they have a lawful basis to use personal data in a particular way
- If they need to rely on or capture consent, draft a privacy notice, deal with data protection rights invoked by an individual, or transfer personal data outside the European Economic Area
- If there has been a data breach

- Whenever they are engaging in a new activity that may affect the privacy rights of individuals
- If they need help with any contracts or sharing personal data with third parties

## **6.Data Protection Principles**

The GDPR is based on data protection principles that our school must comply with.

The principles say that personal data must be:

- Processed lawfully, fairly and in a transparent manner
- Collected for specified, explicit and legitimate purposes
- Adequate, relevant and limited to what is necessary to fulfil the purposes for which it is processed
- Accurate and, where necessary, kept up to date
- Kept for no longer than is necessary for the purposes for which it is processed
- Processed in a way that ensures it is appropriately secure

This policy sets out how Homer First School and Nursery aims to comply with these principles.

## **7. Collecting Personal Data**

### **a. Lawfulness, fairness and transparency**

We will only process personal data where we have one of 6 'lawful bases' (legal reasons) to do so under data protection law:

- The data needs to be processed so that Homer First School and Nursery can fulfil a contract with the individual, or the individual has asked Homer First School and Nursery to take specific steps before entering into a contract
- The data needs to be processed so that Homer First School and Nursery can comply with a legal obligation
- The data needs to be processed to ensure the vital interests of the individual e.g. to protect someone's life
- The data needs to be processed so that Homer First School and Nursery, as a public authority, can perform a task in the public interest, and carry out its official functions
- The data needs to be processed for the legitimate interests of Homer First School and Nursery or a third party (provided the individual's rights and freedoms are not overridden)
- The individual (or their parent/carer when appropriate in the case of a pupil) has freely given clear consent

For special categories of personal data, we will also meet one of the special category conditions for processing which are set out in the GDPR and Data Protection Act 2018.

If we offer online services to pupils, such as classroom apps (in addition to those already specified within the privacy notice), and we intend to rely on consent as a basis for processing, we will get parental consent.

Whenever we first collect personal data directly from individuals, we will provide them with the relevant information required by data protection law.

### **b. Limitation, minimisation and accuracy**

We will only collect personal data for specified, explicit and legitimate reasons. We will explain these reasons to the individuals when we first collect their data.

If we want to use personal data for reasons other than those given when we first obtained it, we will inform the individuals concerned before we do so and seek consent where necessary.

Staff must only process personal data where it is necessary in order to do their jobs. When staff no longer need the personal data they hold, they must ensure it is deleted or anonymised. This will be done in accordance with the Information and Records Management Society's toolkit for schools.

## **8.Sharing Personal Data**

We will not normally share personal data with anyone else, but may do so where:

There is an issue with a pupil or parent/carer that puts the safety of our staff at risk  
We need to liaise with other agencies – we will seek consent as necessary before doing this  
Our suppliers or contractors need data to enable us to provide services to our staff and pupils – for example, IT companies. When doing this, we will:

- Only appoint suppliers or contractors which can provide sufficient guarantees that they comply with data protection law
- Establish a data sharing agreement with the supplier or contractor, either in the contract or as a standalone agreement, to ensure the fair and lawful processing of any personal data we share
- Only share data that the supplier or contractor needs to carry out their service, and information necessary to keep them safe while working with us

We will also share personal data with law enforcement and government bodies where we are legally required to do so, including for:

- The prevention or detection of crime and/or fraud
- The apprehension or prosecution of offenders
- The assessment or collection of tax owed to HMRC
- In connection with legal proceedings
- Where the disclosure is required to satisfy our safeguarding obligations
- Research and statistical purposes, as long as personal data is sufficiently anonymised or consent has been provided

We may also share personal data with emergency services and local authorities to help them to respond to an emergency situation that affects any of our pupils or staff.

Where we transfer personal data to a country or territory outside the European Economic Area, we will do so in accordance with data protection law.

## **Subject Access Requests and other Rights of Individuals**

### **a. Subject access requests**

Individuals have a right to make a 'subject access request' to gain access to personal information that Homer First School and Nursery holds about them. This includes:

- Confirmation that their personal data is being processed
- Access to a copy of the data
- The purposes of the data processing
- The categories of personal data concerned
- Who the data has been, or will be, shared with

- How long the data will be stored for, or if this isn't possible, the criteria used to determine this period
- The source of the data, if not the individual
- Whether any automated decision-making is being applied to their data, and what the significance and consequences of this might be for the individual

Subject access requests must be submitted in writing, either by letter, email or fax to the DPO. They should include:

- Name of individual
- Correspondence address
- Contact number and email address
- Details of the information requested
- 

If staff receive a subject access request they must immediately forward it to the DPO.

### **b. Children and subject access requests**

Personal data about a child belongs to that child, and not the child's parents or carers. For a parent or carer to make a subject access request with respect to their child, the child must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

#### *Children below the age of 12 (Primary School):*

Children below the age of 12 are generally not regarded to be mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents or carers of pupils at our school may be granted without the express permission of the pupil. This is not a rule and a pupil's ability to understand their rights will always be judged on a case-by-case basis.

### **c. Responding to subject access requests**

When responding to requests, we:

- May ask the individual to provide 2 forms of identification
- May contact the individual via phone to confirm the request was made
- Will respond without delay and within 1 month of receipt of the request
- Will provide the information free of charge
- May tell the individual we will comply within 3 months of receipt of the request, where a request is complex or numerous. We will inform the individual of this within 1 month, and explain why the extension is necessary

We will not disclose information if it:

- Might cause serious harm to the physical or mental health of the pupil or another individual
- Would reveal that the child is at risk of abuse, where the disclosure of that information would not be in the child's best interests
- Is contained in adoption or parental order records
- Is given to a court in proceedings concerning the child

If the request is unfounded or excessive, we may refuse to act on it, or charge a reasonable fee which takes into account administrative costs.

A request will be deemed to be unfounded or excessive if it is repetitive, or asks for further

copies of the same information.

When we refuse a request, we will tell the individual why, and tell them they have the right to complain to the ICO.

#### **d. Other data protection rights of the individual**

In addition to the right to make a subject access request (see above), and to receive information when we are collecting their data about how we use and process it (see section 7),

individuals also have the right to:

- Withdraw their consent to processing at any time
- Ask us to rectify, erase or restrict processing of their personal data, or object to the processing of it (in certain circumstances)
- Prevent use of their personal data for direct marketing
- Challenge processing which has been justified on the basis of public interest
- Request a copy of agreements under which their personal data is transferred outside of the European Economic Area
- Object to decisions based solely on automated decision making or profiling (decisions taken with no human involvement, that might negatively affect them)
- Prevent processing that is likely to cause damage or distress
- Be notified of a data breach in certain circumstances
- Make a complaint to the ICO
- Ask for their personal data to be transferred to a third party in a structured, commonly used and machine-readable format (in certain circumstances) Individuals should submit any request to exercise these rights to the DPO. If staff receive such a request, they must immediately forward it to the DPO.

#### **10. Parental requests to see Educational Record**

Parents of children in maintained schools have the right to access their child's educational record (which includes most information about a pupil). Homer First School and Nursery will respond within 15 school days of receipt of a written request.

#### **11. CCTV**

Homer First School and Nursery may use CCTV in various locations around the school site to ensure it remains safe. If we use CCTV we will adhere to the ICO's code of practice for the use of CCTV.

We do not need to ask individuals' permission to use CCTV, but we will make it clear where individuals are being recorded. Security cameras will be clearly visible and accompanied by prominent signs explaining that CCTV is in use.

Any enquiries about the CCTV system should be directed to Homer First School and Nursery based representative of the Data Protection Officer (DPO)

#### **12. Photographs & Videos**

As part of our school activities, we may take photographs and record images of individuals within our school.

### *Pupils aged under 18 years of age*

We will obtain written consent from parents/carers for photographs and videos to be taken of their child for communication, marketing and promotional materials. We will clearly explain how the photograph and/or video will be used.

Uses may include:

- Within school on notice boards and in school magazines, brochures, newsletters, etc.
- Outside of school by external agencies such as Homer First School and Nursery photographer, newspapers, campaigns
- Online on our school website or social media pages

Consent can be refused or withdrawn at any time. If consent is withdrawn, we will delete the photograph or video and not distribute it further.

When using photographs and videos in this way we will not accompany them with any other personal information about the child without prior consent.

Any photographs and videos taken by parents/carers at school events for their own personal use are not covered by data protection legislation. However, we will ask that photos or videos with other pupils are not shared publicly on social media for safeguarding reasons, unless all the relevant parents/carers have agreed to this.

### **13. Artificial intelligence (AI)**

Artificial intelligence (AI) tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT and Google Bard. Homer First School and Nursery recognises that AI has many uses to help pupils learn, but also poses risks to sensitive and personal data.

To ensure that personal and sensitive data remains secure, no one will be permitted to enter such data into unauthorised generative AI tools or chatbots.

If personal and/or sensitive data is entered into an unauthorised generative AI tool, Homer First School will treat this as a data breach, and will follow the personal data breach procedure outlined in appendix 1.

### **14. Data Protection by Design & Default**

We will put measures in place to show that we have integrated data protection into all of our data processing activities, including:

- Appointing a suitably qualified DPO, and ensuring they have the necessary resources to fulfil their duties and maintain their expert knowledge
- Only processing personal data that is necessary for each specific purpose of processing, and always in line with the data protection principles set out in relevant data protection law (see section 6)
- Completing privacy impact assessments where Homer First School and Nursery's processing of personal data presents a high risk to rights and freedoms of individuals, and when introducing new technologies (the DPO will advise on this process)
- Integrating data protection into internal documents including this policy, any related policies and privacy notices

- Regularly training members of staff on data protection law, this policy, any related policies and any other data protection matters; we will also keep a record of attendance
- Regularly conducting reviews and audits to test our privacy measures and make sure we are compliant
- Maintaining records of our processing activities, including:
  - For the benefit of data subjects, making available the name and contact details of our school and DPO and all information we are required to share about how we use and process their personal data (via our privacy notices)
  - For all personal data that we hold, maintaining an internal record of the type of data, data subject, how and why we are using the data, any third-party recipients, how and why we are storing the data, retention periods and how we are keeping the data secure

### **15.Data Security & Storage of Records**

We will protect personal data and keep it safe from unauthorised or unlawful access, alteration, processing or disclosure, and against accidental or unlawful loss, destruction or damage.

In particular:

- Paper-based records and portable electronic devices, such as laptops and hard drives that contain personal data are kept under lock and key when not in use
- Papers containing confidential personal data must not be left on office and classroom desks, on staffroom tables, pinned to notice/display boards, or left anywhere else where there is general access
- Where personal information needs to be taken off site, staff must sign it in and out from Homer First School and Nursery office
- Passwords that are at least 8 characters long containing letters and numbers are used to access school computers, laptops and other electronic devices. Staff passwords are changed regularly.
- Encryption software is used to protect all portable devices and removable media, such as laptops and USB devices where personal information is stored
- Staff, pupils or governors who store personal information on their personal devices are expected to follow the same security procedures as for school-owned equipment (see our Online Safety policy on acceptable use)
- Where we need to share personal data with a third party, we carry out due diligence and take reasonable steps to ensure it is stored securely and adequately protected (see section 8)

### **16. Disposal of Records**

Personal data that is no longer needed will be disposed of securely. Personal data that has become inaccurate or out of date will also be disposed of securely, where we cannot or do not need to rectify or update it.

For example, we will shred or incinerate paper-based records, and overwrite or delete electronic files. We may also use a third party to safely dispose of records on Homer First School and Nursery's behalf. If we do so, we will require the third party to provide sufficient guarantees that it complies with data protection law.

### **17.Personal Data Breaches**

Homer First School and Nursery will make all reasonable endeavours to ensure that there are no personal data breaches. In the unlikely event of a suspected data breach, we will follow the procedure set out in appendix 1.

When appropriate, we will report the data breach to the ICO within 72 hours. Such breaches in a school context may include, but are not limited to:

- A non-anonymised dataset being published on Homer First School and Nursery website
- Safeguarding information being made available to an unauthorised person
- The theft of a school laptop containing non-encrypted personal data about pupils

### **18.Training**

All staff and governors are provided with data protection training as part of their induction process.

Data protection will also form part of continuing professional development, where changes to legislation, guidance or Homer First School and Nursery's processes make it necessary.

### **19. Monitoring Arrangements**

The DPO is responsible for monitoring and reviewing this policy.

This policy will be reviewed and updated if necessary when the Data Protection Bill receives royal assent and becomes law (as the Data Protection Act 2018) – if any changes are made to the bill that affect our school's practice. Otherwise, or from then on, this policy will be reviewed every 2 years and shared with the full governing board.

### **20.Links with Other Policies**

This data protection policy is linked to other policies including:

- Freedom of information publication scheme
- Equality Policy
- Online Safety Policy
- AI Policy

## **Appendix 1 – Personal Data Breach Procedure**

This procedure is based on guidance on personal data breaches produced by the ICO.

- On finding or causing a breach, or potential breach, the staff member or data processor must immediately notify the DPO
- The DPO will investigate the report and determine whether a breach has occurred. To decide, the DPO will consider whether personal data has been accidentally or unlawfully:
  - Lost
  - Stolen
  - Destroyed
  - Altered
  - Disclosed or made available where it should not have been
  - Made available to unauthorised people
- The DPO will alert the headteacher and the chair of governors
- The DPO will make all reasonable efforts to contain and minimise the impact of the breach, assisted by relevant staff members or data processors where necessary. (Actions relevant to specific data types are set out at the end of this procedure)
- The DPO will assess the potential consequences, based on how serious they are, and how likely they are to happen
- The DPO will work out whether the breach must be reported to the ICO. This must be judged on a case by-case basis. To decide, the DPO will consider whether the breach is likely to negatively affect people's rights and freedoms, and cause them any physical, material or non-material damage (e.g. emotional distress), including through:
  - Loss of control over their data
  - Discrimination
  - Identify theft or fraud
  - Financial loss
  - Unauthorised reversal of pseudonymisation (for example, key-coding)
  - Damage to reputation
  - Loss of confidentiality
  - Any other significant economic or social disadvantage to the individual(s) concerned

If it's likely that there will be a risk to people's rights and freedoms, the DPO must notify the ICO.

The DPO will document the decision (either way), in case it is challenged at a later date by the ICO or an individual affected by the breach. Documented decisions are stored by the DPO on the Trust's central systems.

- Where the ICO must be notified, the DPO will do this via the 'report a breach' page of the ICO

website within 72 hours. As required, the DPO will set out:

- A description of the nature of the personal data breach including, where possible:
  - The categories and approximate number of individuals concerned
  - The categories and approximate number of personal data records concerned
- The name and contact details of the DPO
- A description of the likely consequences of the personal data breach
- A description of the measures that have been, or will be taken, to deal with the breach and mitigate any possible adverse effects on the individual(s) concerned

- If all the above details are not yet known, the DPO will report as much as they can within 72 hours. The report will explain that there is a delay, the reasons why, and when the DPO expects to have further information. The DPO will submit the remaining information as soon as possible
- The DPO will also assess the risk to individuals, again based on the severity and likelihood of potential or actual impact. If the risk is high, the DPO will promptly inform, in writing, all individuals whose personal data has been breached. This notification will set out:
  - o The name and contact details of the DPO
  - o A description of the likely consequences of the personal data breach
  - o A description of the measures that have been, or will be, taken to deal with the data breach and mitigate any possible adverse effects on the individual(s) concerned
- The DPO will notify any relevant third parties who can help mitigate the loss to individuals – for example, the police, insurers, banks or credit card companies
- The DPO will document each breach, irrespective of whether it is reported to the ICO. For each breach, this record will include the:
  - o Facts and cause
  - o Effects
  - o Action taken to contain it and ensure it does not happen again (such as establishing more robust processes or providing further training for individuals)

Records of all breaches will be stored by the DPO on the central system.

The DPO and headteacher will meet to review what happened and how it can be stopped from happening again. This meeting will happen as soon as reasonably possible

### **Actions to minimise the impact of data breaches**

We will take the actions set out below to mitigate the impact of different types of data breach, focusing especially on breaches involving particularly risky or sensitive information. We will review the effectiveness of these actions and amend them as necessary after any data breach.

### **Sensitive information being disclosed via email (including safeguarding records)**

- If special category data (sensitive information) is accidentally made available via email to unauthorised individuals, the sender must attempt to recall the email as soon as they become aware of the error
- Members of staff who receive personal data sent in error must alert the sender and the DPO as soon as they become aware of the error
- If the sender is unavailable or cannot recall the email for any reason, the DPO will ask the ICT department to recall it
- In any cases where the recall is unsuccessful, the DPO will contact the relevant unauthorised individuals who received the email, explain that the information was sent in error, and request that those individuals delete the information and do not share, publish, save or replicate it in any way
- The DPO will ensure we receive a written response from all the individuals who received the data, confirming that they have complied with this request
- The DPO will carry out an internet search to check that the information has not been made public; if it has, we will contact the publisher/website owner or administrator to request that the information is removed from their website and deleted. Other types of breach that you might want to consider could include:

- o Details of pupil premium interventions for named children being published on Homer First School website
- o Non-anonymised pupil exam results or staff pay information being shared with governors
- o A school laptop containing non-encrypted sensitive personal data being stolen or hacked
- o Homer First School and Nursery's cashless payment provider being hacked and parents' financial details stolen

## Appendix 2

### Date Protection Officer (DPO) Job Description

#### Main purpose

The DPO is responsible for monitoring compliance with current UK data protection law and the school's data protection policies, and has the knowledge, support and authority to do so effectively. They oversee the school's data protection processes and advise the school on best practice.

#### Key responsibilities

To:

- Advise the school and its employees about their obligations under current data protection law, including the UK General Data Protection Regulation (UK GDPR)
- Develop an in-depth understanding of the school's processing operations, information systems, data security processes and needs, and administrative rules and procedures
- Monitor the school's compliance with the UK GDPR and other data protection laws, by:
  - Collecting information to identify data processing activities
  - Analysing and checking the compliance of data processing activities
- Informing, advising and issuing recommendations to the school
- Ensuring they remain an expert in data protection issues and changes to UK law, attending relevant training as appropriate
- Ensure the school's policies are followed, through:
  - Assigning responsibilities to individuals
  - Awareness-raising activities
  - Co-ordinating staff training
  - Conducting internal data protection audits
- Advise on and assist the school with carrying out data protection impact assessments, if necessary
- Act as a contact point for the Information Commissioner's Office (ICO), assisting and consulting it where necessary, including:
  - Helping the ICO to access documents and information
  - Seeking advice on data protection issues
- Act as a contact point for individuals whose data is processed (for example, staff, pupils and parents), including:
  - Responding to subject access requests
  - Responding to other requests regarding individuals' rights over their data and how it is used
- Take a risk-based approach to data protection, including:
  - Having regard to the nature, scope, context and purposes of any processing activity
  - Prioritising and focusing on higher-risk data processing activities
  - Providing the school with risk-based advice
- Report to the governing body on the school's data protection compliance and associated risks
- Respect and uphold confidentiality, as appropriate and in line with UK data protection law, in carrying out all duties of the role
- Undertake any additional tasks necessary to keep the school compliant with UK data protection law and be successful in the role

- Maintain a record of the school's data processing activities
- Work with external stakeholders, such as suppliers or members of the community, on data protection issues
- Take responsibility for fostering a culture of data protection throughout the school
- Work closely with other departments and services to ensure UK GDPR compliance, such as HR, legal, IT and security
- Advising the school if/when it should conduct an audit, which areas staff need training in, and what the DPO role should involve

### **Notes for internal candidates**

Internal staff members may take on this role, but before expressing an interest they should be aware that the DPO must:

- Have a role which is compatible with the DPO role, in terms of time and workload
- Not have any conflicts of interest between their current role and the DPO role
